Hi Ed

Our congressional folks have not heard anything from Sen. Schumer's office.

Do you know if this event occurred today?

As an fyi, the sampling is an agenda topic for our meeting last week; Stan indicated via email last week that he was ok with this being on the agenda. He is doing follow up on the correspondence he received from you and Lora.

Importance: High

Senator Schumer plans a press release this morning. See below.

Obviously he continues to be miss-informed.

Does EPA public relations have a line into the Senators office so he can be correctly informed?

Ed

OR PLANNING PURPOSES:

January 25, 2016

**SCHUMER: AS TOXIC PLUMES CONTINUE TO
SPREAD ON LI, SENATOR DEMANDS NAVY &
NORTHROP GRUMMAN PROVIDE DRINKING WATER
DATA TO AFFECTED LI WATER DISTRICTS; NAVY,
NORTHROP GRUMMAN DRAGGING FEET ON
ALLOWING MASSAPEQUA WATER DISTRICT ACCESS
TO KEY DATA FROM MONITORING WELLS; SCHUMER
URGES NO MORE DELAY**

Massapequa Water District Wants to Test Whether Contaminated Water Recently Found at a Nearby Superfund Site; Contaminant Represents The Same Toxic Chemicals Found in the Bethpage Plume

Navy & Northrop Grumman Continue to Make Things Difficult for LI Water Districts That Require Permission To Test Wells Affected by Plume

Schumer: Cooperation Is Essential To Protecting Drinking Water & Ensuring Crystal-Clear Info Sharing

TODAY; JANUARY 25th At 11:00AM, standing at the Massapequa water district pump station, U.S. Senator Charles E. Schumer will call on the U.S. Navy and Northrop Grumman to share data from their monitoring wells with all affected Long Island Water Districts, and to do so sooner rather than later. Schumer will urge the Navy and Northrop Grumman to work closely with these water districts in order to remediate the plume. There are at least two plumes within the Bethpage community that are a result of the U.S. Navy's 1930's operation of a Naval Weapons Production Facility. Schumer will point out that elevated levels of a potential carcinogen, trichloroethylene (TCE), an industrial solvent used at the former defense plant, was found in the area. Schumer will say each and every affected Water District should be granted access to these monitoring wells in order to help manage and prevent the spread of the plume.

Schumer will be joined by LI water district officials as he makes this important push.

WHEN: TODAY; January 25TH AT 11:00AM

PLACE: MASSAPEQUA WATER DISTRICT PUMP STATION; LOCATED ALONG SUNRISE HIGHWAY

(North side of Sunrise Highway, 1/4 mile west of Hicksville Rd in Massapequa. Its opposite the Chase Bank and looks like an I-Hop)
